Director of the US Patent and Trademark Office,

Patent # 5915641  
Application # 08325549..

I went online to pay my 11 1/2 year maintenance fee and received a screen saying it had expired. I inadvertently missed a payment date in 2007 and proceeded to file a petition to accept a delayed payment of maintenance fees on 6/16/2009 and accompanied a check (# 7724) in the amount of \$2880 to pay for the fees and an extra few pounds of flesh. Upon inquiry and a conversation with one of your petition attorneys, Doug Wood, it was revealed that the check was cashed but the paper work was lost and I should fax and send a copy of the petition sent in 2007. I am faxing this and will send a copy and a check for \$2055.00, the 11 1/2 year fee via the USPO and make a follow up call to verify that you have received the paper work.

Awaiting your response,

## WARNING:

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
